

## OUR FOUNDER

John Kapitan has more than 15 years of experience in medical device development. Prior to founding Kapstone, John was the Vice President of Product Development and the Vice President of Regulatory Affairs and Quality for Altiva Corporation, a development stage spinal implant company that was sold to Exactech, Inc. in 2008. John's experience also includes AcroMed Corporation, DePuy AcroMed, and the Cleveland Clinic Foundation. John has designed and managed development for many commercialized products, is an inventor with over a dozen patents and patents pending, and has written several industry articles.

## OUR AFFILIATE

Baat Medical, Kapstone's affiliate organization in Europe, is based in Hengelo, The Netherlands. Baat brings a wealth of European based experience and perspective. Baat plays a pivotal role through their ability to obtain CE Marking for clients' products.

## PARTNERS WE SUPPORT

SENAI: Senai is a platform to directly connect businesses and individuals to indigenous small and medium-sized businesses in the developing world through social enterprise. Senai focuses in the areas of safe water, agricultural production, micro-enterprise, shelter provision and medical needs.

POTTER'S INN: The Potter's Inn is a Christian ministry devoted to the work of spiritual transformation. It specializes in guided retreats for churches and organizations, Soul Care for individual business leaders, ministers, and their spouses and developing resources for the journey of spiritual transformation.

Manufacturing

Quality System Development

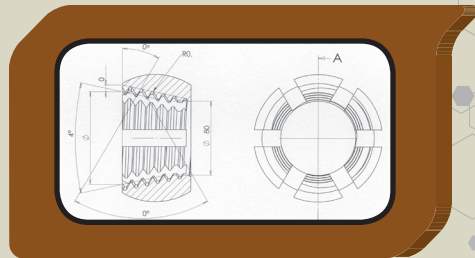

## CONCEPT

Kapstone Medical is a truly unique provider of medical device solutions with a focus on making innovative concepts become marketable products.

We employ a 'milestone-based' approach with a focus on deliverables, resulting in:

- Creative Solutions
- Quick Feasibility Decisions
- Iterative Design-Build-Test Cycles
- Faster Product Launches

## CAD & PROTOTYPE

With a full suite of in-house design analysis tools and prototyping at our disposal, Kapstone strives to become your partner in development. Our engineers have many years of real world expertise.

That is confidence you can trust.

## COMMERCIALIZATION

As a physician inventor you now have an alternative to giving away your ideas. A Kapstone partnership will build value while allowing you to retain control. Kapstone can assist with finding the right 'home' for your product through their extensive knowledge base and contacts within the medical device industry.
